MEMORANDUM FOR : *Deputy for* Director Field Activities, OSA
SUBJECT : Map Destruct Systems

1. Map cases with destruct system and a map projector with destruct system have been developed and tested in response to a stated requirement. The attached description of these systems is submitted for your information and guidance. The attached cover letter states a case for the elimination of the maps the destruct system and the map cases.

2. I concur with this recommendation and request that the requirement for maps other than the map projector be reviewed in light of the extremely remote possibility of multiple failures of the other back up navigation equipment, and the weight/space penalty associated with the use of maps.

SIGNED

JOHN PARANGOSKY
Deputy for Technology
(Special Activities)
